Note Well

Any submission to the IETF intended by the Contributor for publication as all or part of an IETF Internet-Draft or RFC and any statement made within the context of an IETF activity is considered an "IETF Contribution". Such statements include oral statements in IETF sessions, as well as written and electronic communications made at any time or place, which are addressed to:

* The IETF plenary session
* The IESG, or any member thereof on behalf of the IESG
* Any IETF mailing list, including the IETF list itself, any working group or design team list, or any other list functioning under IETF auspices
* Any IETF working group or portion thereof
* The IAB or any member thereof on behalf of the IAB
* The RFC Editor or the Internet-Drafts function

All IETF Contributions are subject to the rules of RFC 5378 and RFC 3979 (updated by RFC 4879).

Statements made outside of an IETF session, mailing list or other function, that are clearly not intended to be input to an IETF activity, group or function, are not IETF Contributions in the context of this notice.

Please consult RFC 5378 and RFC 3979 for details.

A participant in any IETF activity is deemed to accept all IETF rules of process, as documented in Best Current Practices RFCs and IESG Statements.

A participant in any IETF activity acknowledges that written, audio and video records of meetings may be made and may be available to the public.

Agenda

Agenda bash	Chairs, 5'
Interim meeting recap	Chairs, 5'
Problem statement and requirement draft (draft-johnston-cuss-sip-uui-reqs-00)	Alan Johnston, 30'
Mechanism for transporting UUI in SIP (draft-johnston-cuss-sip-uui-00)	Alan Johnston, 30'
Interworking ISDN call control user information with SIP (draft-drage-cuss-sip-uui-isdn-00)	Keith Drage, 30'
Next steps and open discussion	Chairs, WG participants; 50'

Interim meeting recap

Interim meeting recap

- Kickoff meeting (virtual) held on Sept. 30, 2010.

- It was decided to hold a face-to-face meeting in Beijing (so, here we are.)

- Before meeting, chairs to determine consensus for adopting documents pertaining to the three deliverables:

  - Problem statement and requirements document (Informational)

  - SIP call control UUI specification (Standards track)

  - ISDN UUI service application usage (Standards track)

Since interim meeting

- Call for adoption of the first deliverable ("Problem statement and requirements") sent out to list on Oct-06-2010. Candidate draft: draft-johnston-cuss-sip-uui-reqs-00.

- Received a good number of favorable replies for adoption.

- Draft adopted as WG deliverable on Oct-24-2010.

- Author to rename as WG document and submit after the Beijing IETF.

Since interim meeting (contd.)

- After Beijing meeting is over, chairs will issue serial calls for adoption for the remaining two documents.

- Candidate drafts:

  - For charter deliverable "SIP call control UUI specification", candidate draft is: draft-johnston-cuss-sip-uui.

  - For charter deliverable "ISDN UUI service application usage", candidate draft is: draft-drage-cuss-sip-uui-isdn.

- Please send any other candidate drafts to the list.

Next steps and open discussion

Next steps and open discussion

- In first interim, it was suggested to meet in Beijing and then meet virtually to move work ahead. Comments?

- Any other business?
