

# LISP Document Status

*Darrel Lewis*  
*IETF 79, Beijing*  
*draft-ietf-lisp-09.txt*

# Agenda

- Draft-LISP-08 change review
- Draft-LISP-09 change review
- Expected future work
- Questions and Comments

# Draft-08 Status

- Draft -08 posted August, 2010
- Contained many changes based on detailed reviews by WG members
- Some highlights:
  - Subjective statements removed throughout the document
  - Removed Section 14 "Prototype Plans and Status"
  - Clarified SMR handling

# Draft-08 Status (cont.)

- Change highlights (continued)
  - Changed the Introduction to remove obsolete information
  - Changes to section 5 to include results of network deployment experience with MTU
- Proposed text for changes posted to WG list
  - Comments from Damien on WG List
    - ITR-RLOC Count

# Draft-09 Status

- Draft -09 posted October, 2010
- Contained only a few changes:
  - Add to IANA Consideration section about the use of LCAF Type values.
  - Indicate that implementations should be able to receive LISP control messages when either UDP port is 4342
  - Clarified SMR handling

# Outstanding Work

- Still more Issue Tracker updates pending
- Future work over the next few weeks:
  - 'ack' to registration packet
  - Work on ETR 'over claiming' issue
  - Directorate review responses?
    - (Chairs, have a status?)

# Q and A

- Questions and Comments?
