Note Well

Any submission to the IETF intended by the Contributor for publication as all or part of an IETF Internet-Draft or RFC and any statement made within the context of an IETF activity is considered an "IETF Contribution". Such statements include oral statements in IETF sessions, as well as written and electronic communications made at any time or place, which are addressed to:

- The IETF plenary session
- The IESG, or any member thereof on behalf of the IESG
- Any IETF mailing list, including the IETF list itself, any working group or design team list, or any other list functioning under IETF auspices
- Any IETF working group or portion thereof
- The IAB or any member thereof on behalf of the IAB
- The RFC Editor or the Internet-Drafts function

All IETF Contributions are subject to the rules of RFC 5378 and RFC 3979 (updated by RFC 4879).

Statements made outside of an IETF session, mailing list or other function, that are clearly not intended to be input to an IETF activity, group or function, are not IETF Contributions in the context of this notice.

Please consult RFC 5378 and RFC 3979 for details.

A participant in any IETF activity is deemed to accept all IETF rules of process, as documented in Best Current Practices RFCs and IESG Statements.

A participant in any IETF activity acknowledges that written, audio and video records of meetings may be made and may be available to the public.
Agenda

• **Administrivia** (5 minutes)
  – Scribes (Meeting Minutes & Jabber)
    Many thanks to Richard Graveman, for volunteering to take meeting minutes!
    We still need a Jabber Scribe to help remote attendees
  – Blue Sheets

• **Welcome & Progress Report** - Chairs (10 minutes)

• **Analysis of BGP, LDP and MSDP Security According to KARP Design Guide**
  - Mahesh Jethanandani (15 minutes)

• **LDP Hello Cryptographic Authentication** - Vero Zheng (10 minutes)

• **Analysis of OSPF Security According to KARP Design Guide** - Sam Hartman (15 minutes)

• **A Generic Mechanism to solve Inter-Session Replay Attacks for Routing and Signaling Protocols and Security Extension for OSPFv2 when using Manual Key Management** - Dacheng Zhang (30 minutes)

• **Multicast Router Key Management Protocol (MRKMP)** - Sam Hartman (15 minutes)

• **Negotiation in Keying Management Protocols** - Xiaoping Liang (10 minutes)
Current WG Drafts

draft-ietf-karp-design-guide-02
  Status: Completed WGLC. Will be forwarded to the ADs next week.

draft-ietf-karp-threats-reqs-01
  Status: Expired. Not expected to be published

draft-ietf-karp-framework-00
  Status: In Working Group Review.

draft-ietf-karp-ospf-analysis-00
draft-ietf-karp-crypto-key-table-00
  Status: Adopted as WG item.
We’ve got more RPs ....

- Looking for volunteers to analyze
  - IS-IS
  - RSVP-TE
  - PIM

- Please contact the chairs privately if you’re interested in discussing joining a design team
