IETF Vcarddav Working Group

IETF 80 Prague

Wednesday, April 1st 2011, 13h00-14h00

Chair:
Marc Blanchet, mailto:marc.blanchet@viagenie.ca

http://www.vcarddav.org
Any submission to the IETF intended by the Contributor for publication as all or part of an IETF Internet-Draft or RFC and any statement made within the context of an IETF activity is considered an "IETF Contribution". Such statements include oral statements in IETF sessions, as well as written and electronic communications made at any time or place, which are addressed to:

- the IETF plenary session,
- any IETF working group or portion thereof,
- the IESG or any member thereof on behalf of the IESG,
- the IAB or any member thereof on behalf of the IAB,
- any IETF mailing list, including the IETF list itself,
- any working group or design team list, or any other list functioning under IETF auspices,
- the RFC Editor or the Internet-Drafts function

All IETF Contributions are subject to the rules of RFC 3978 (updated by RFC 4748) and RFC 3979 (updated by RFC 4879).

Statements made outside of an IETF session, mailing list or other function, that are clearly not intended to be input to an IETF activity, group or function, are not IETF Contributions in the context of this notice.
Please consult RFC 3978 (and RFC 4748) for details.

A participant in any IETF activity is deemed to accept all IETF rules of process, as documented in Best Current Practices RFCs and IESG Statements.

A participant in any IETF activity acknowledges that written, audio and video records of meetings may be made and may be available to the public.
Proposed Agenda

1. Administrativia

2. a) vcard4 WGLC issues resolution (Perreault, Resnick)
   draft-ietf-vcarddav-vcardrev
   b) vcard XML
   draft-ietf-vcarddav-vcardxml

3. Individual drafts on extensions :
   + draft-george-vcarddav-vcard-extension-03
   + draft-li-vcarddav-vcard-id-property-extensions-01
   + draft-cauchie-vcarddav-oma-cab-extensions

4. Next Steps/Charter
Administrativia

- Blue Sheet: please sign. This helps scheduling the size of the rooms.
- Call for volunteers:
  - scribes
  - jabber scribe
- Jabber room: vcarddav@jabber.ietf.org
- WG web site:
  - http://www.vcarddav.org
WG Doc Status

- draft-ietf-vcarddav-webdav-mkcol
  - Extended MKCOL for WebDAV
  - Published as RFC5689

- draft-ietf-vcarddav-carddav
  - vCard Extensions to WebDAV (CardDAV)
  - Current state: RFC Ed Queue.
  - RFC Editor State: MISSREF: draft-ietf-vcarddav-vcardrev

- draft-ietf-vcarddav-vcardrev
  - vCard Format Specification
  - WGLC done. Comments discussed today.

- draft-ietf-vcarddav-vcardxml
  - Vcard XML bindings.
  - WGLC.

- Individual drafts
  - draft-smarr-vcarddav-portable-contacts
  - draft-george-vcarddav-vcard-extension-03
  - draft-li-vcarddav-vcard-id-property-extensions-01
  - draft-cauchie-vcarddav-oma-cab-extensions
Charter Discussion

• Main milestones almost done (last docs in WGLC->going to IESG)

• Charter Milestones:
  – (1) A revision of the vCard specification (RFC2426)
  – (2) An address book access protocol leveraging the vCard data format.
  – (3) An XML schema
  – (4) Identifying useful deployed vCard vendor extensions and creating standards track versions of those extensions.
  – (5) Cooperate with the Sieve WG to produce a Sieve extension for address book Sieve tests.
  – (6) LDAP mapping to the new vCard format without loss of data.
Rechartering: A first cut

- Vcard4 is the most recent version of the Vcard format which is a data format for specifying contact information. It provides a mechanism to define extensions for specific uses or markets. There is also a mapping from the basic format to XML.

- Extensions have been proposed for vcard and additional mappings to other data formats and languages. The working group will define these on the basis of the vcard4 format and XML mapping. Any extension should have its equivalent mapping in XML.

- The WG will produce extensions and new mappings as required. The working group will look at the following proposed extensions for standardization. Other extensions may be considered.
  - Draft-george-vcarddav-vcard-extension
  - Draft-li-vcarddav-vcard-id-property-extensions
  - draft-cauchie-vcarddav-oma-cab-extensions

- Additional mapping will be looked at for standardization:
  - JSON mapping

- Deliverables:
