

# Problem Statement and Requirements for Transporting User to User Call Control Information in SIP

## draft-ietf-cuss-sip-uui-reqs-03

Alan Johnston <alan.b.johnston@gmail.com>

Laura Liess <laura.liess.dt@gmail.com>

# Status

- Completed WGLC on -02 version on June 17
- Comments from:
  - John Elwell
  - Martin Dolly
  - Christian Schmidt
  - Paul Kyzivat
  - James Rafferty
  - Shida Schubert
  - Roland Jesske
  - Christer Holmberg
- Revised as -03 on July 11
  - All comments believed to have been addressed
- New comments from Dale Worley on July 12

# Issues

- UUI in failure responses
  - Difficult due to hop-by-hop nature of 4xx, 5xx, and 6xx
  - Not aware of any use cases
- URI or URL in UUI
  - Contracts by-value requirement REQ-5
  - Call-Info is the standard way to do this
- Tagging UUI as DSS1 vs. QSIG vs. ISUP
  - Is this necessary? Possible?

# Next Steps

- Does WG believe document is ready to progress?
