

draft-ietf-lisp-sec-00

F. Maino, V. Ermagan, A. Cabellos, D. Saucez, O. Bonaventure

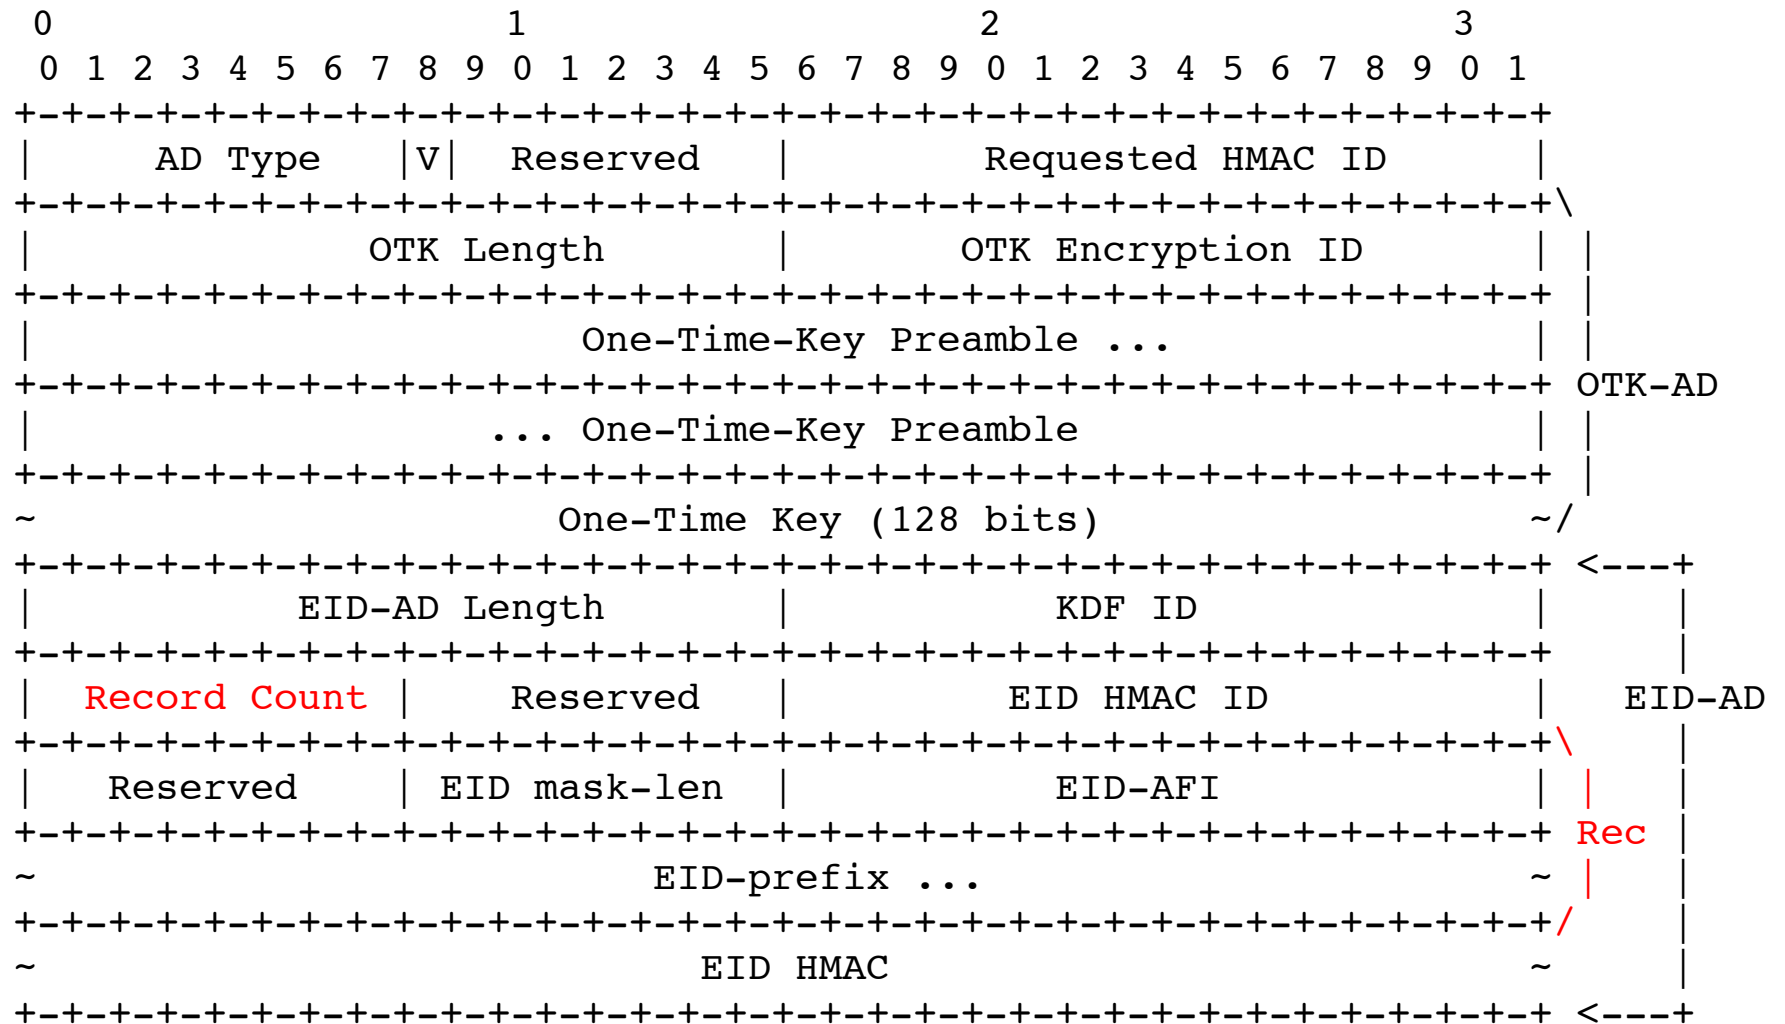

Presenter: Vina Ermagan

IETF 81, Quebec City – July 2011

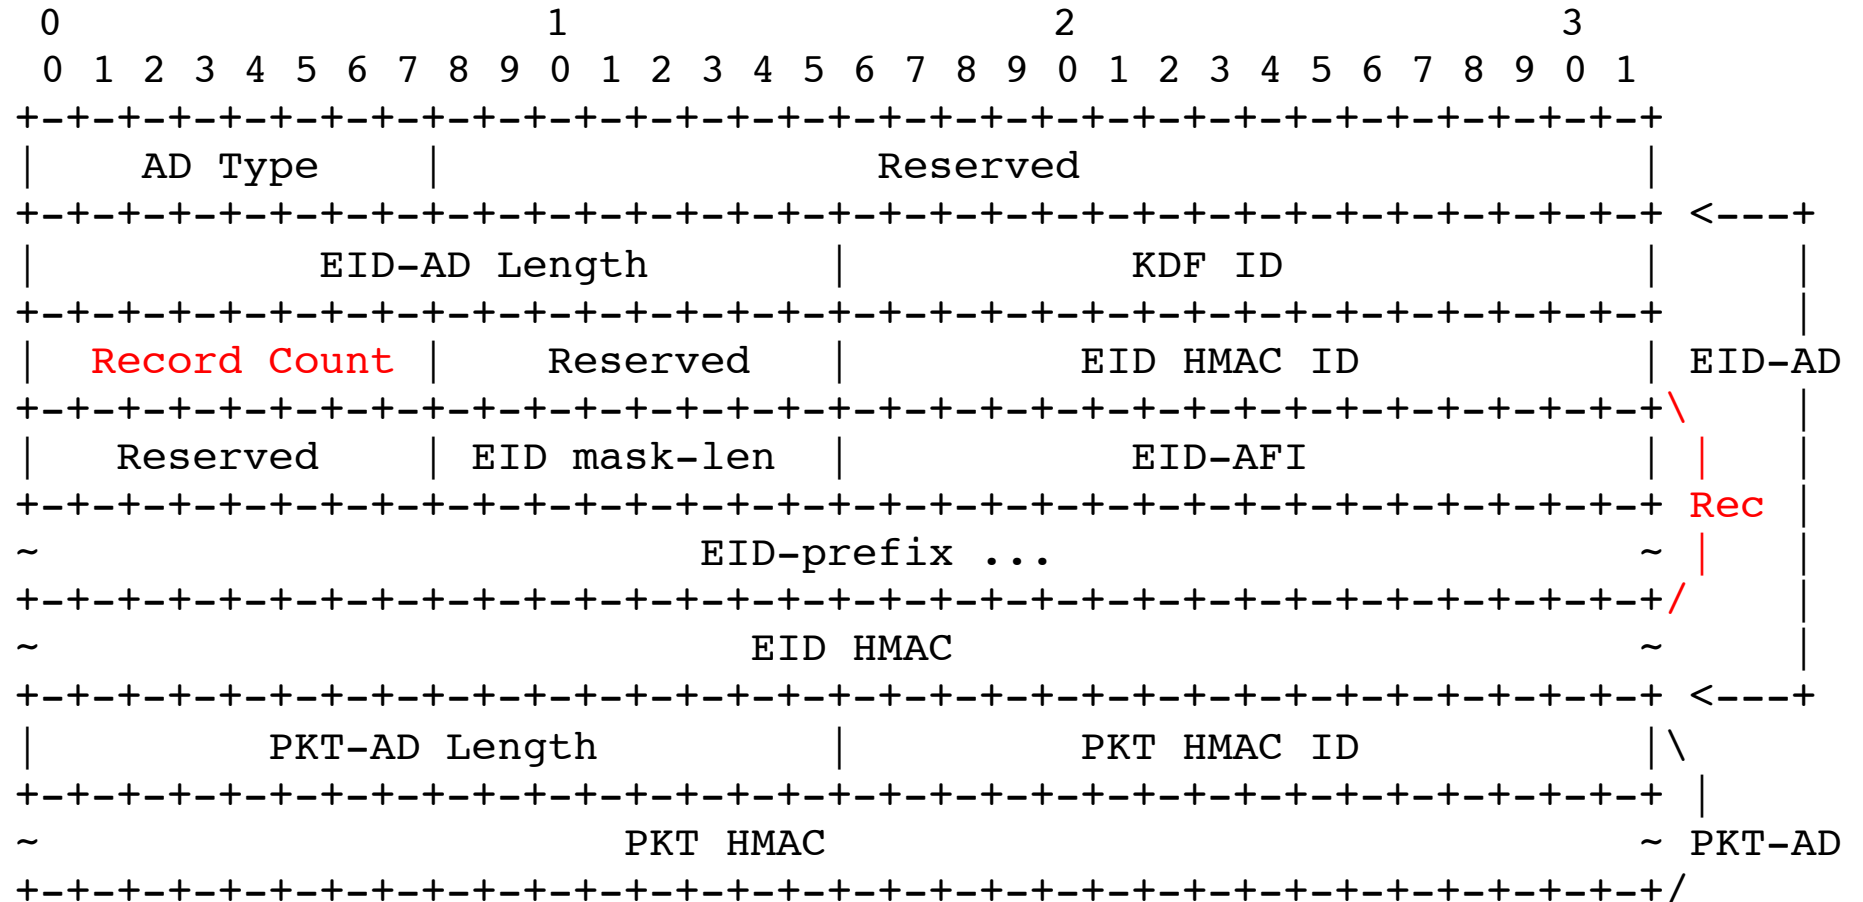

List of changes

- Clarified scope of coverage in abstract and introduction
- Record count for EID prefix in EID-AD
- Scope of PKT-HMAC
- Map-Reply record validation
- PIR processing
- MS and ETR co-location
- Terminology (ITR-OTK, MS-OTK)

ECM Authentication Data

Map-Reply Authentication Data

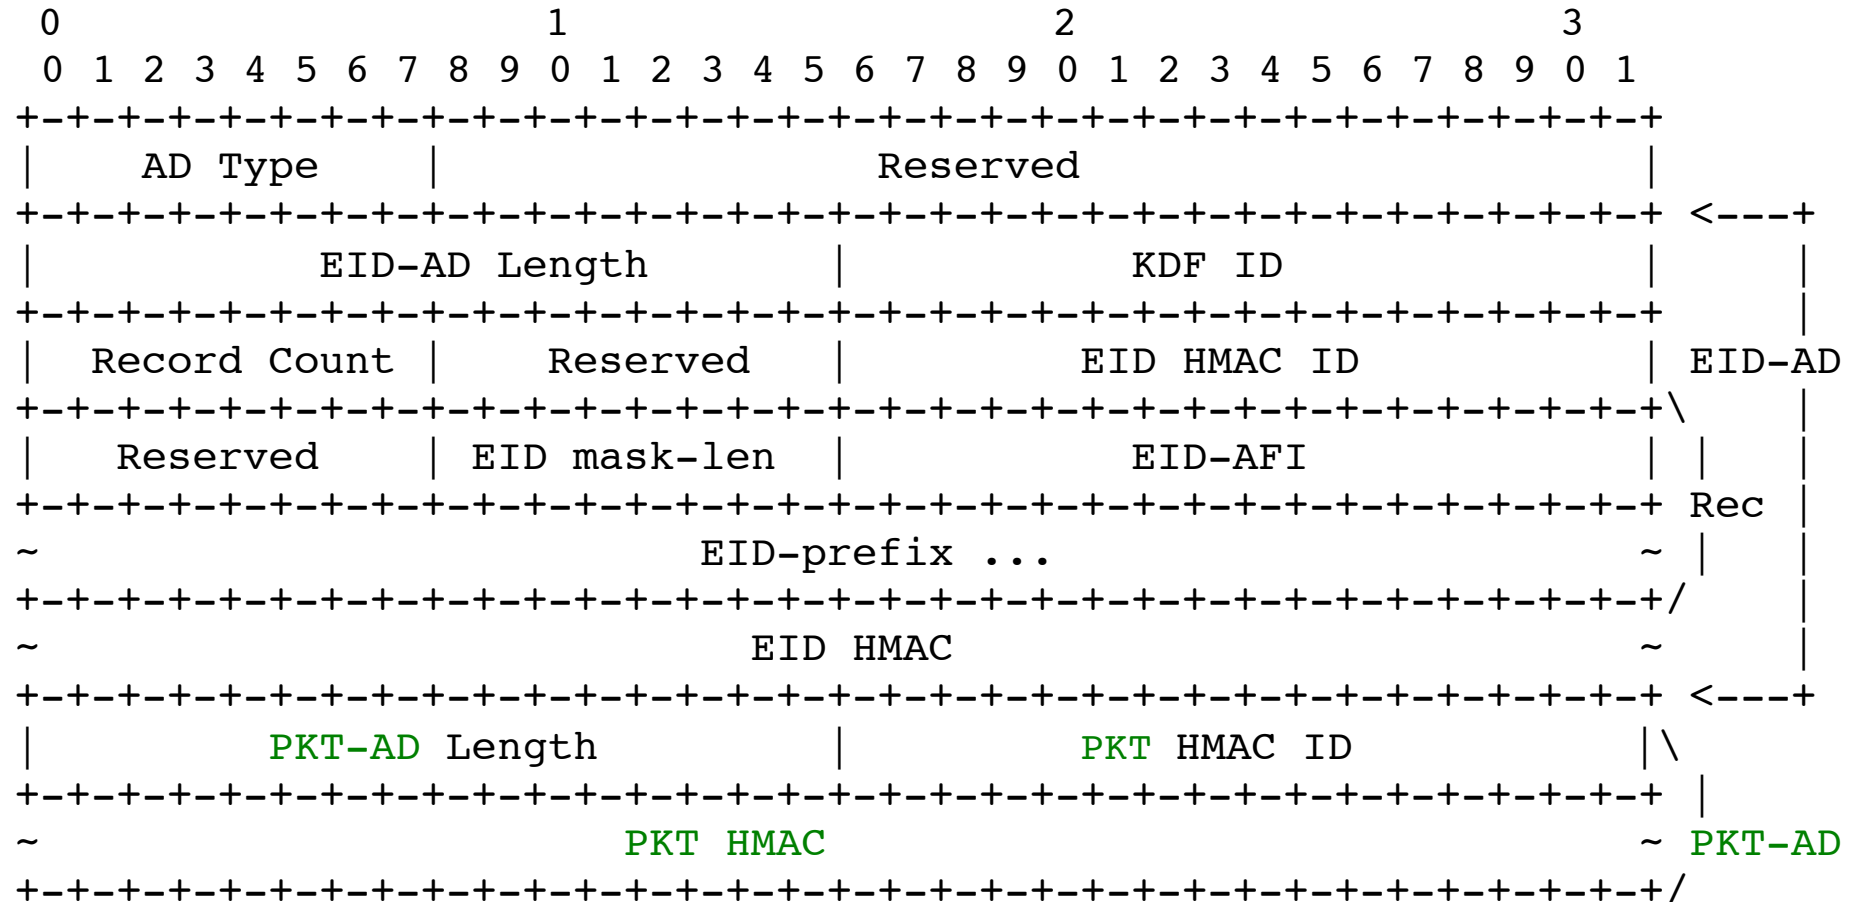

List of changes

- Clarified scope of coverage in abstract and introduction
- Record count for EID prefix in EID-AD

- **Scope of PKT-HMAC**
 - Includes entire Map-Reply packet now

- Map-Reply record validation
- Pitr processing
- MS and ETR co-location
- Terminology (ITR-OTK, MS-OTK)

Map-Reply Authentication Data

List of changes

- Clarified scope of coverage in abstract and introduction
- Record count for EID prefix in EID-AD
- Scope of PKT-HMAC

- Map-Reply record validation
 - Both EID-AD and PKT-AD are valid, and
 - The intersection of the EID prefix in the Map-Reply EID-record with one of the EID prefixes contained in the EID-AD is not empty.

- Pitr processing
- MS and ETR co-location
- Terminology (ITR-OTK, MS-OTK)

List of changes

- Clarified scope of coverage in abstract and introduction
- Record count for EID prefix in EID-AD
- Scope of PKT-HMAC
- Map-Reply record validation

- **PITR processing**
 - Similar to ITR if not directly connected to ALT
 - If directly connected to ALT, performs both ITR and Map-Resolver processing

- MS and ETR co-location
- Terminology (ITR-OTK, MS-OTK)

List of changes

- Clarified scope of coverage in abstract and introduction
- Record count for EID prefix in EID-AD
- Scope of PKT-HMAC
- Map-Reply record validation
- Pitr processing

- **MS and ETR co-location**
 - ETR falls within trust domain of Map-Servers
 - ETR overclaiming attack in this case is not included in threat model

- Terminology (ITR-OTK, MS-OTK)

List of changes

- Clarified scope of coverage in abstract and introduction
- Record count for EID prefix in EID-AD
- Scope of PKT-HMAC
- Map-Reply record validation
- Pitr processing
- MS and ETR co-location

- Terminology
 - OTK => ITR-OTK
 - ETR-OTR => MS-OTK
 - LOC-AD => PKT-AD

THANKS!
