

IETF 81

3530bis

Tom Haynes
NetApp

Where are we?

- On schedule
- Entered and Left Group Last Call
- Need to decide how to move forward

Another WGG Last Call

- Dave supplied text for the lockers issue
 - Note, problem with 3530 and not 5661
 - Makes sense to still fix in 3530
- Marcel Telka (Oracle) has found some typos
- Mike Eisler has found some typos

How can we help David review this?

- Provide a map per section of changes
 - Will cause a self-review.
 - Should highlight what is important
- Need to spread the load
 - I'm willing to lead
 - Need conference calls?
