- Send write-ups to confirming bodies:
  - January 9, 2012
- Announce confirmed candidates:
  - February 9, 2012

Simplify volunteering for the Nomcom

- Should we make it easier to volunteer for the Nomcom?

- Here is a strawman proposal
  - By the first IETF of the year, we already know who will be eligible for the Nomcom cycle that year
    - Exceptions will be handled through the regular call for volunteers
  - When people turn up to register during the March IETF, they will be told they are eligiblle for the Nomcom
    - They will be offered the choice to sign up right away

- Any comments on the proposal?
  - Good idea/Bad idea/Don't care?

Thank You
