NOTE WELL
http://www.ietf.org/about/note-well.html

Any submission to the IETF intended by the Contributor for publication as all or part of an IETF Internet-Draft or RFC and any statement made within the context of an IETF activity is considered an "IETF Contribution". Such statements include oral statements in IETF sessions, as well as written and electronic communications made at any time or place, which are addressed to:

The IETF plenary session
The IESG, or any member thereof on behalf of the IESG
Any IETF mailing list, including the IETF list itself, any working group or design team list, or any other list functioning under IETF auspices
Any IETF working group or portion thereof
Any Birds of a Feather (BOF) session
The IAB or any member thereof on behalf of the IAB
The RFC Editor or the Internet-Drafts function

All IETF Contributions are subject to the rules of RFC 5378 and RFC 3979 (updated by RFC 4879). Statements made outside of an IETF session, mailing list or other function, that are clearly not intended to be input to an IETF activity, group or function, are not IETF Contributions in the context of this notice. Please consult RFC 5378 and RFC 3979 for details. A participant in any IETF activity is deemed to accept all IETF rules of process, as documented in Best Current Practices RFCs and IESG Statements. A participant in any IETF activity acknowledges that written, audio and video records of meetings may be made and may be available to the public.
From INCH to MILE

- In the years since the completion of the IETF INCH working group, we have more experience with IODEF and RID, and new incident handling areas to cover.

- MILE established to continue this work:
  - coordinate development of extensions to IODEF
  - coordinate continued work on RID, including resubmission to Standards Track

- Initial charter contains nine documents
  - Two (6045-bis, 6046-bis) already adopted as WG item
  - Five to be presented for adoption at today's meeting
  - Two documents pending submission
Initial charter items (1-3)

- An informational document on IODEF Guidance.
  - No document submitted yet — intended to help new implementors to correctly apply RFC 5070
  - WGLC in Paris, March 2012

- A Standards Track document specifying the Real-time Inter-network Defense (RID)
  - draft-moriarty-mile-rfc6045-bis adopted as WG item on list, 4 November 2011
  - WGLC begins after Taipei meeting

- A Standards Track document specifying the transport for RID.
  - draft-trammell-mile-rfc6046-bis adopted as WG item on list, 10 November 2011
  - WGLC begins after Taipei meeting
Initial charter items (4-6)

- An informational template for extensions to IODEF.
  - [draft-trammell-mile-template](#)
  - WGLC in December 2011

- A Standards Track document for IODEF Extensions in IANA XML Registry.
  - [draft-trammell-mile-iodef-xmlreg](#)
  - WGLC in December 2011...
  - ...but may be folded into -template, per list discussion

- A Standards Track document for IODEF Extension to support structured cybersecurity information.
  - [draft-takahashi-mile-sci](#)
  - WGLC in December 2011
Initial charter items (7-9)

- A Standards Track document for Labeling for data protection, retention, policies, and regulations.
  - draft-goodier-mile-data-markers
  - WGLC in Paris, March 2012 (implied from charter text)

  - draft-moriarty-mile-grc-exchange
  - WGLC in May 2012

- A Standards Track document for IODEF Extension to support forensics.
  - No document submitted yet
  - WGLC in June 2012
Agenda

- Agenda bashing (5 min)
- Introduction (10 min)
- Discussion of open issues (30 min)
  - Presentation of draft-takahashi-mile-sci (10 min)
  - Consolidation of -template and -iodef-xmlreg (5 min)
  - GRC Report Exchange (5 min)
  - Other open issues, per document (open mike, 10 min)
- Adoption of WG items (10 min)
- Discussion of draft-vesely-mile-mail-abuse (5 min)
  - Individual submission for later addition to the charter
