Generalizing RID

New Draft Document: GRC Report Exchange

- New draft to generalize RID for use with any XML schema
 - In an early review stage, comments and feedback are welcome!
- Related user groups:
 - Requested by ITU for Legal XML use case work with OASIS (LI-XML)
 - Requested by Governance, Risk, and Compliance XML (GRC-XML) group in OMG
 - Under review by the Emerging Specifications list for possible use
- Desire to standardize the security, policy and privacy options for incident response to these other XML formatted documents for exchange purposes

<http://tools.ietf.org/html/draft-moriarty-mile-grc-exchange-01>

XML Schema

GRC-Exchange

- Includes “restriction” attribute from IODEF
- Three classes
 - GRCPolicy
 - Policy and security options are set
 - RequestStatus
 - Reports on the status of a request
 - Report Schema
 - Identifies the schema to be used

GRCPolicy

- Identifies the report ID and contact information
- Specifies the sharing scope of the report in the PolicyRegion class
 - Who this can be shared with
- Identifies the report type in ReportType
 - Filing
 - SLA
 - Compliance
 - Etc.

THANK YOU
