

# DECoupled Application Data Enroute @ IETF 83

Richard Woundy [Richard\\_Woundy@cable.comcast.com](mailto:Richard_Woundy@cable.comcast.com)

Haibin Song [Haibin.song@huawei.com](mailto:Haibin.song@huawei.com)

# Welcome to DECADE!

- Chairs:
  - Richard Woundy
  - Haibin Song
- Jabber Scribe
  - [decade@ietf.org](mailto:decade@ietf.org)
- Notes
- Blue sheets

# Note Well

Any submission to the IETF intended by the Contributor for publication as all or part of an IETF Internet-Draft or RFC and any statement made within the context of an IETF activity is considered an "IETF Contribution". Such statements include oral statements in IETF sessions, as well as written and electronic communications made at any time or place, which are addressed to:

- ☐ the IETF plenary session,
- ☐ any IETF working group or portion thereof,
- ☐ the IESG or any member thereof on behalf of the IESG,
- ☐ the IAB or any member thereof on behalf of the IAB,
- ☐ any IETF mailing list, including the IETF list itself, any working group or design team list, or any other list functioning under IETF auspices,
- ☐ the RFC Editor or the Internet-Drafts function

All IETF Contributions are subject to the rules of RFC 5378 and RFC 3979 (updated by RFC 4879). Statements made outside of an IETF session, mailing list or other function, that are clearly not intended to be input to an IETF activity, group or function, are not IETF Contributions in the context of this notice. Please consult RFC 5378 and RFC 3979 for details.

A participant in any IETF activity is deemed to accept all IETF rules of process, as documented in Best Current Practices RFCs and IESG Statements.

A participant in any IETF activity acknowledges that written, audio and video records of meetings may be made and may be available to the public.

# Agenda

- Agenda Bash, Chairs, 5min,
- Problem Statement, [draft-ietf-decade-problem-statement-05](#), Haibin Song, 10min
- DECADE Architecture, [draft-ietf-decade-arch-05](#), Akbar Rahman, 15min
- Integration Examples, [draft-ietf-decade-integration-example-03](#), Ning Zong, 10min
- Non-chartered doc: An HTTP-based DECADE Resource Protocol, [draft-wang-decade-drp-03](#), Danhua Wang, 15min
- Proposed revisions to charter text
- Conclusion and next steps

# Status change since last meeting

- The problem statement draft has passed the IESG ballot
- The Requirements draft and Architecture drafts were revised according to comments from the AD
- The chairs named Ning Zong as the editor for integration example draft to move it forward
- Lack of list discussion!
  - Engineers are good at discussing how to implement a protocol, but the current charter does not allow it...

# Lessons Learned

- At this point, without the definition of “DECADE”, you can not use it to imply a protocol, an entity, etc.
- IETF WGs are temporary, but RFCs last forever; don't refer to WGs in RFCs
- Ensure that draft focuses on its intended topic, e.g. Problem Statement should only discuss problems, not solutions

Thank you!
