Any submission to the IETF intended by the Contributor for publication as all or part of an IETF Internet-Draft or RFC and any statement made within the context of an IETF activity is considered an "IETF Contribution". Such statements include oral statements in IETF sessions, as well as written and electronic communications made at any time or place, which are addressed to:

The IETF plenary session  
The IESG, or any member thereof on behalf of the IESG  
Any IETF mailing list, including the IETF list itself, any working group or design team list, or any other list functioning under IETF auspices  
Any IETF working group or portion thereof  
Any Birds of a Feather (BOF) session  
The IAB or any member thereof on behalf of the IAB

Please consult RFC 5378 and RFC 3979 for details.

A participant in any IETF activity is deemed to accept all IETF rules of process, as documented in Best Current Practices RFCs and IESG Statements.

A participant in any IETF activity acknowledges that written, audio and video records of meetings may be made and may be available to the public.
