Issue # Early vs late discard

- The current draft allocate one bit to distinguish Early discard from late discard.

- Charles noted that report both Early and late in the same interval is a issue.

- Thank for reviewers
  - Varun Singh, Jing Zhao, yanxia Zhang

- Proposal:
  - Allocate one more bit to distinguish three options
    - 1 packets are discarded due to early arrival
    - 2 packets are discarded due to late arrival
    - 3 packets are discarded due to both early arrival and late arrival.

Follow Up

- Question?

- WGLC to the following draft:
