DANE WG

DNS-based Authentication of Named Entities
Welcome to DANE

Chairs:
  ○ Warren Kumari <warren@kumari.net>
  ○ Ondřej Surý <ondrej.sury@nic.cz>

Jabber Scribe:
  ○ dane@ietf.jabber.org

Minutes:
  ○ http://tools.ietf.org/wg/dane/minutes

- Note Well.
- Blue Sheets.
- Agenda Bashing.
Note Well.

Any submission to the IETF intended by the Contributor for publication as all or part of an IETF Internet-Draft or RFC and any statement made within the context of an IETF activity is considered an "IETF Contribution". Such statements include oral statements in IETF sessions, as well as written and electronic communications made at any time or place, which are addressed to:

- The IETF plenary session
- The IESG, or any member thereof on behalf of the IESG
- Any IETF mailing list, including the IETF list itself, any working group or design team list, or any other list functioning under IETF auspices
- Any IETF working group or portion thereof
- Any Birds of a Feather (BOF) session
- The IAB or any member thereof on behalf of the IAB
- The RFC Editor or the Internet-Drafts function

All IETF Contributions are subject to the rules of RFC 5378 and RFC 3979 (updated by RFC 4879). Statements made outside of an IETF session, mailing list or other function, that are clearly not intended to be input to an IETF activity, group or function, are not IETF Contributions in the context of this notice. Please consult RFC 5378 and RFC 3979 for details.

A participant in any IETF activity is deemed to accept all IETF rules of process, as documented in Best Current Practices RFCs and IESG Statements.
A participant in any IETF activity acknowledges that written, audio and video records of meetings may be made and may be available to the public.
Working Group/BOF Rosters ("Blue Sheets").

- Please fill these in.
Agenda Bashing.

- Administrivia – Chairs 15 minutes
  Note Well – Scribe / Minutes – Blue Sheets

- draft-fanf-dane-smtp & draft-fanf-dane-mua – Paul Hoffman
  15 minutes
  Secure inter-domain SMTP with TLS, DNSSEC and TLSA records

- draft-hoffman-dane-smime – Paul Hoffman 15 minutes
  Using Secure DNS to Associate Certificates with Domain Names
  For S/MIME

- draft-miller-xmpp-dnssec-prooftype – Matt Miller 15 minutes
  Using DNS Security Extensions (DNSSEC) and DNS-based
  Authentication of Named Entities (DANE) as a Proofotype for XMPP
  Domain Name Associations

- The future of DANE? – Ondrej Sury 30 minutes
  ○ The protocol doc is done. What has to be done next?
  ○ What to do with existing drafts in case we close?

- AOB – Everyone Remainder
  Open mic / performance art – Everyone.
