

Exporting MIB Variables using the IPFIX Protocol

~~draft-johnson-ipfix-mib-variable-export-04~~
draft-ietf-ipfix-mib-variable-export-00

Juergen Schoenwaelder, Srikar B S, Benoit Claise, Paul Aitken

84th IETF Meeting, Vancouver, 2012

Overview

- This document specifies a way to complement IPFIX Flow Records with Management Base (MIB) objects, avoiding the need to define new IPFIX Information Elements for existing Management Information Base objects that are already fully specified.
- -00 is simply a rename of the private draft (no changes).
- ~20 open issues to be resolved.
