

Security Threats for NHDP

draft-ietf-manet-nhdp-sec-threats-00

U. Herberg, J. Yi, T. Clausen

Status

- Still in -00 revision
- Few comments on the mailing list
 - Reviews/comments requested

On the scope...

- Common attacks
 - Critical threats to NHDP are included: indirect jamming, eavesdropping ...
- Impacts on protocols using NHDP
 - MPR selection, data sinkhole ...
 - No need to repeat in SMF-sec-threats and OLSRv2-threats in the future

Next steps

- Other threats to be included?
- WGLC?
