

MSID

Harald Alvestrand

Changes Since Paris

- draft-alvestrand-rtcweb-msid-02
- Split generic mechanism from RTCWEB application
 - Generic mechanism allows grouping of SSRCs from any number of M-lines, for any purpose
 - Added use of "semantic" attribute, using existing registries
 - No changes to functionality when used for RTCWEB track grouping
- Removed muting of tracks
 - Improves focus

Next Steps

- One of
 - Accept draft as MMUSIC work item, republish as draft-ietf-mmusic-msid
 - Republish as draft-alvestrand-mmusic with changes based on feedback, ask again
 - Reject idea entirely, ask RTCWEB to find another way to fulfil its requirements
