

OLSRv2 Update

draft-ietf-manet-olsrv2-17.txt

Thomas Clausen, Christopher Dearlove,
Philippe Jacquet, Ulrich Herberg

-15 to -16

- Editorial following WG, AD and directorate reviews.
 - Does not obsolete RFC 3626
 - Notation better aligned with RFC 5497.
 - Expanded Security Considerations, added reference to RFC 6622.

IESG Review

- Comments from Barry Leiba (DISCUSS), Benoit Claise, Martin Stiernerling (DISCUSS), Pete Resnick, Stephen Farrell (DISCUSS).
- All except Stephen Farrell's DISCUSS resolved in -17. Adrian Farrel and Barry Leiba YES, 11 NO OBJECTION.

-16 to -17

- Resolved all comments and cleared all DISCUSSES except Stephen Farrell's.
- Editorial changes to Terminology, Applicability, Protocol and Port Numbers, Local Attached Network Set, rejecting messages.
- Added overview of Routing and Flooding MPRs, comments on two many WILL_NEVER routers, time granularity to match NHDP, comments on interval parameters, comments on Flow and Congestion Control parameter changes.
- Moved Appendix D to be Appendix A, clarifying status.

OLSRv2 Status

- Authors to meet and discuss with Stephen Farrell on security comments (DISCUSS).
- Main question is why are guidelines for security sufficient?
- Intention to consider security (signatures using RFC 6622) in separate draft(s).
- Hope to complete IESG review soon.

OLSRv2 Metrics Rationale

draft-ietf-manet-olsrv2-metrics-rationale-01.txt

Christopher Dearlove, Thomas Clausen,
Philippe Jacquet

Status

- Adopted by WG.
- Completed WGLC.
- To submit for IETF review etc.
