

Closing Questions (cf. RFC 5434)

AGGSRV BoF, IETF 86
Chair: Peter Saint-Andre

The Problem

- Is the problem...
 - clear?
 - well-scoped?
 - useful and important to solve?
 - feasible to solve?

Interest

- Are you willing to...
 - Write or edit documents?
 - Review documents?
 - Implement, test, or deploy code?

Venue

- Does the proposed work actively conflict with initiatives in other SDOs? (cf. RFC 5704)
- Is there a better venue for this work than the IETF?

WG Formation

- Given the inputs and discussion so far, do you think it is reasonable to form an Aggregated Service Discovery WG at the IETF?
- Do you think it is unreasonable?
- Do you not have enough information?
