

Recommendations for Transport Port Uses

draft-ietf-tsvwg-port-use-01
IETF 86 - Orlando

Joe Touch, USC/ISI
As presented by Gorry Fairhurst

Purpose

- BCP advice to ***protocol designers***
 - Encourage port conservation
 - Encourage use of existing services
 - Discourage ‘reinventing the wheel’
 - Clarify how to describe a service in an application and/or ID
- **NOT**
 - Direction to the IESG or Expert Review team

Current Status

- **ietf-tsvwg-port-use**
 - Updated Feb. 2013
- **Current doc:**
 - Fully populated (complete— no more placeholders)
 - Includes conclusions on recent system/user port discussion
 - Includes input from IETF 85/Atlanta
 - Intro, location of Sec 5 still in some flux
 - Input/comments welcome
