

**I E T F**®

## **6lo**

**Date:** Thursday, August 1, 2013

**Time:** 5pm – 6.30pm

**Room:** Bellevue

**Chairs:** Ralph Droms  
Ulrich Herberg

### **Description:**

This BoF will discuss a proposed working group that focuses on IP-over-foo standardization (adaptation layers) for constrained node networks, working closely with the INT area working groups and other IETF WGs focused on constrained node networks. It will be a WG-forming BoF.
