- WGLC #2 ended 24th April.. It took few months and revisions to get down to 4 open issues from 39.
- Once remaining issues are addressed, a quick one week WGLC#3 and ship the document.

About the new work...

- To work on a new document / problem / solution you need to:
 - Identify a gap
 - Get the WG to agree on the identified gap
 - Document the gap
- Once we got a stable current practices & gap analysis document and identified gaps are documented the WG can re-charter.
