mLDP extensions for integrating EVPN and multicast

draft-allan-l2vpn-mldp-evpn-01

Dave Allan, Jeff Tantsura

What's it about?

- mLDP extensions to simplify signaling of MDTs for EVPN

- Primarily in the form of mLDP FEC types
  - VLAN tagged FEC (base draft)
  - I-SID tagged FEC (for 802.1ah & 802.1aq)
  - Shared FEC (all flavors…)

Changes from Last Version

- Clarification on usage of the VLAN FEC
  - Support for VLAN aware and VLAN unaware RTs

Next Steps

- Collect comments from list
- WG adoption….
