# OAuth & Assertions

Brian Campbell
IETF #87
July 2013

Assertion Framework for OAuth 2.0 Client Authentication and Authorization Grants
draft-ietf-oauth-assertions-12

SAML 2.0 Profile for OAuth 2.0 Client Authentication and Authorization Grants
draft-ietf-oauth-saml2-bearer-17

JSON Web Token (JWT) Profile for OAuth 2.0 Client Authentication and Authorization Grants
draft-ietf-oauth-jwt-bearer-06

Status
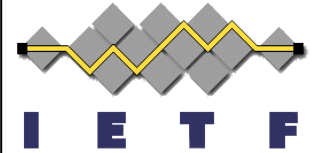

- Two new revisions of all three documents published since Orlando

- All three documents went to WGCL on July 18
  - http://www.ietf.org/mail-archive/web/oauth/current/msg11765.html
  - Review is encouraged
  - Comments by August 8

- Currently no outstanding spec issues (that I'm aware of)

- Potential procedural issue
  - The JWT Assertions doc depends on the JWT doc
  - JWT depends on the JOSE docs (JWS, JWE, & JWA)
  - JWT and JOSE are not as far along in the process
  - Does it matter?
    - (not a rhetorical question, I don't know the answer)
