LDP Convergence Benchmarking Terminology

-Rajiv Papneja
-Bhavani Parise
Background and Current Status

• Within BMWG charter to address pending LDP Convergence item
• Revamped draft from 2008
• Motivation for the work is increased focus on reducing Convergence time for LDP
• New Terminology draft published
  – draft-parise-bmwg-ldp-convergence-term-00.txt
  – Bhavani Parise, Rajiv Papneja
Scope of the Draft

- Scope limited to basic LDP convergence
- Terminology supports the methodology that will be based on black-box testing of the LDP dataplane
- Scope to include both v4 & v6
Next Steps

• Initial version of the Terminology document published.
• Welcoming contributors
• Feedback welcome from the group on the terminology
