

# XMPP Address Format

(draft-ietf-xmpp-6 | 22bis-08)

Peter Saint-Andre  
XMPP WG  
IETF 88, Vancouver

# Status

- PRECIS framework has completed WGLC, so we can move forward “soon”
- I promised to add some examples but haven't done that yet. Will do soon.
- Need to update PRECIS scripts to automatically test impact of future Unicode changes on XMPP profiles
