`draft-ietf-bfcpbis-rfc4583`

For both drafts

- Review comments and issues resolved
 - If not, it would be addressed on the list hopefully!
- From SDP directorate and other review
 - (One miss, see later slide)
- If you have any input or comment
 - Go to the microphone
 - Take it to the list ASAP

draft-ietf-bfcpbis-rfc4582

- Should the Appendix B still be included?
 - Motivation for unreliable transport extension
 - Proposal: Yes, to get historical background
- More to do?
 - It's up to the WG
 - Review/read through the draft if you haven't!

draft-ietf-bfcpbis-rfc4583

- Erroneous mix of TCP re-establishment and TLS roles will be fixed
 - Cf. response to Christer Holmberg on the list
- Will update section listing changes to include all major/notable changes
 - What was done in the current version
- More to do?
 - It's up to the WG
 - Review/read through the draft if you haven't!
