

# Customizing DHCP Configuration On the basis of Network Topology

Toronto, 2014-07-23

Ted Lemon

Tomek Mrugalski

# Quick update

-02 published

- thanks to Andre, Carsten, Simon, Jinmei and Suresh for their careful review
- BCP => Informational
- Examples improved
- Clarified that changes in DNS are not picked up instantly (caching in DNS vs T1 in DHCP)
- Added references
- Other smaller cleanups

# Next steps

- Add a discussion about link-addr in RELAY-FORW being link-local or ::
- Ready for WGLC?
