# FORCES PACKET PARALLELIZATION

Evangelos Haleplidis (ehalep@ece.upatras.gr)

Joel Halpern (jmh@joelhalpern.com)

# Document Status – Last call finished

- Responding to all comments.
  - Thanks to Jamal for providing an in-depth review
- New version shortly
- Specifically:
  - General fixes in the text
  - Explicitly define that CoreParallelization LFB can only appear once.
  - Include Merge LFB timeout timer.
  - Fixes in the XML
  - Remove InvalideMetadataSets (initially used to store invalid MetadataIDs)

# Conclusion

- New document is ready for the next step in the process.
