

Proxy Mobile IPv6 Extensions to Support Flow Mobility draft-ietf-netext-pmipv6-flowmob-08

Carlos J. Bernardos (Ed.) – Universidad Carlos III de Madrid

Toronto, NETEXT WG, 2014-07-24

Current status

- Version -10 captures latest WG comments
 - Version -11 submitted this week adds minor clarification on RFC7077 dependencies
- Pending issue (brought by Hidetoshi): inclusion (back) of flow identification option in the signalling
 - WG consensus on this?

Next steps

- Document is ready for WGLC
