

draft-ietf-aqm-codel-00

Intent of document

- Capture base algorithm and state of implementation
- Provide AQM with a clarified document to reference in further documents, e.g. fq_codel
- Developments based on CoDel should happen in their own documents

State of draft-00

- Replaces draft-nichols-tsvwg-codel
- Part of 6.2 was missing, only substantial addition in this version
- References added, minor editorial and formatting changes
- Further editorial and reference cleanups required, some references missing / obsolete
 - Please supply references if you are aware of them
