Agenda:

Changes since IETF 90

Next Steps

Changes since Toronto (1)

- **Version -05 was presented at IETF 90**
- **Early allocation of IANA codepoints done**
- **RFC 2119 language fixed**
- **Processing rules clarified**
- **Security Considerations done properly**

Changes since Toronto (2)

- **New use case on dual-homing and diversity requirements**
 - **Thanks to Dieter for the text**
 - **A version of this was previously published in draft-fedyk-ccamp-uni-extensions**
 - **We have an IPR disclosure relating to this which is being discussed**
- **Relationship to PKS added**

Next Steps

- **Draft is mature and has been presented on several previous occasions**
- **Implications of last week's IPR disclosure need sorting out**
- **Once that's done, authors believe it's ready for Last Call**

Thank you
