Deterministic Networking (DetNet) BoF

IETF 91

Monday 1520-1720 Afternoon
Session II, Coral 1

Note Well

Any submission to the IETF intended by the Contributor for publication as all or part of an IETF Internet-Draft or RFC and any statement made within the context of an IETF activity is considered an "IETF Contribution". Such statements include oral statements in IETF sessions, as well as written and electronic communications made at any time or place, which are addressed to:

- The IETF plenary session
- The IESG, or any member thereof on behalf of the IESG
- Any IETF mailing list, including the IETF list itself, any working group or design team list, or any other list functioning under IETF auspices
- Any IETF working group or portion thereof
- Any Birds of a Feather (BOF) session
- The IAB or any member thereof on behalf of the IAB
- The RFC Editor or the Internet-Drafts function

All IETF Contributions are subject to the rules of RFC 5378 and RFC 3979 (updated by RFC 4879).

Statements made outside of an IETF session, mailing list or other function, that are clearly not intended to be input to an IETF activity, group or function, are not IETF Contributions in the context of this notice. Please consult RFC 5378 and RFC 3979 for details.

A participant in any IETF activity is deemed to accept all IETF rules of process, as documented in Best Current Practices RFCs and IESG Statements.

A participant in any IETF activity acknowledges that written, audio and video records of meetings may be made and may be available to the public.

Intellectual Property Rights (IPR) Policy

The IETF intellectual property rights rules are defined in RFC 3979, "Intellectual Property Rights in IETF Technology" (updated by RFC 4879, "Clarification of the Third Party Disclosure Procedure in RFC 3979").

The IETF takes no position regarding the validity or scope of any intellectual property rights or other rights that might be claimed to pertain to the implementation or use of the technology described in any IETF documents or the extent to which any license under such rights might or might not be available; nor does it represent that it has made any independent effort to identify any such rights.

IETF Contribution: any submission to the IETF intended by the Contributor for publication as all or part of an Internet-Draft or RFC (except for RFC Editor Contributions described below) and any statement made within the context of an IETF activity. Such statements include oral statements in IETF sessions, as well as written and electronic communications made at any time or place, which are addressed to:

- the IETF plenary session,
- any IETF working group or portion thereof,
- the IESG, or any member thereof on behalf or the IESG,
- the IAB or any member thereof on behalf of the IAB,
- any IETF mailing list, including the IETF list itself, any working group or design team list, or any other list functioning under IETF auspices,
- the RFC Editor or the Internet-Drafts function (except for RFC Editor Contributions described below).

Statements made outside of an IETF session, mailing list or other function, that are clearly not intended to be input to an IETF activity, group or function, are not IETF Contributions in the context of this document.

A participant in any IETF activity is deemed to accept all IETF rules of process, as documented in Best Current Practices RFCs and IESG Statements.

A participant in any IETF activity acknowledges that written, audio and video records of meetings may be made and may be available to the public.

RFC Editor Contribution: An Internet-Draft intended by the Contributor to be submitted to the RFC Editor for publication as an Informational or Experimental RFC but not intended to be part of the IETF Standards Process.

Agenda

- Preliminaries (blue sheets, note well, note takers)
- Opening   30 minutes
  - Setting the context (chairs, ADs)
  - Problem statement (Norm Finn)
- Scoping the work (Pascal Thubert)   10 minutes
- What has been done before in IETF/IEEE   30 minutes
  - IETF IntServ experience (chairs)
  - IEEE Stream Reservation Protocol (Craig Gunther)
  - IETF PCE (Dan King)
- Related work in IETF   20 minutes
  - 6tisch WG (Pascal Thubert)
  - Deterministic Phb (Shitanshu Shah)
- Potential work in the IETF & discussion

Simple clarifying question are OK during the presentation!
