

# DTLS In Constrained Environments (DICE)

WG Chairs:

Dorothy Gellert [dgellert@silverspringnet.com](mailto:dgellert@silverspringnet.com)

Zach Shelby [zach.shelby@arm.com](mailto:zach.shelby@arm.com)

Security Area Advisor:

Stephen Farrell [stephen.farrell@cs.tcd.ie](mailto:stephen.farrell@cs.tcd.ie)

Mailing List: [dtls-iot@ietf.org](mailto:dtls-iot@ietf.org)

To Subscribe: <https://www.ietf.org/mailman/listinfo/dtls-iot>

DICE, IETF-91 Honolulu

# Note Well

This summary is only meant to point you in the right direction, and doesn't have all the nuances. The IETF's IPR Policy is set forth in BCP 79; please read it carefully.

## The brief summary:

- ❖ **By participating with the IETF, you agree to follow IETF processes.**
- ❖ **If you are aware that a contribution of yours (something you write, say, or discuss in any IETF context) is covered by patents or patent applications, you need to disclose that fact.**
- ❖ **You understand that meetings might be recorded, broadcast, and publicly archived.**

For further information, talk to a chair, ask an Area Director, or review the following:

BCP 9 (on the Internet Standards Process)

BCP 25 (on the Working Group processes)

BCP 78 (on the IETF Trust)

BCP 79 (on Intellectual Property Rights in the IETF)

# Goal & Milestone Check

**The scope of this WG is to define the following:**

1. The first task of the working group is to define a DTLS profile that is suitable for Internet of Things applications and is reasonably implementable on many constrained devices.
2. The second task of the working group is to define how DTLS record layer can be used to transmit multicast messages securely.
3. The third task of the working group is to investigate practical issues around the DTLS handshake in constrained environments (= Provide input for DTLS 1.3)

**Goals and Milestones (to be updated)**

Dec 2013 - WG document for DTLS for Constrained Environments profile (DONE)

Dec 2013 - WG document for secure group communication for IoT

May 2014 - DTLS for IoT profile specification submitted to the IESG for publication as standards track

Jun 2014 - Secure group communication specification submitted to the IESG for publication as standards track

# Agenda

- DTLS Profile [Hannes Tschofenig] 20 Minutes
  - draft-ietf-dice-profile-05
  - Overview of the changes
  - WGLC starting Monday 11/10 – 11/24<sup>th</sup>
- Multicast work item scope [Chairs] 5 Minutes
  - Group communication issues
- Multicast draft [Rene Struik/Sandeep Kumar] 20 Minutes
  - Way forward proposal
- Next Steps [Chairs] 5 Minutes
