

# A Fragmentation Strategy for Generic Routing Encapsulation (GRE)

Draft-ietf-intarea-gre-mtu-00

R. Bonica, C. Pignataro, J. Touch

# History

- Introduced as draft-bonica-intarea-gre-mtu
  - Describe GRE fragmentation problem
  - Review fragmentation strategies [RFC 4459]
    - Cost / benefit analysis
  - Describe widely-deployed implementations
    - Default behavior and configuration options
- Repurposed for adoption by WG
  - Describe problem and briefly mention fragmentation alternatives
  - Describe widely-deployed implementations
    - Default behavior and configuration options

# Response to Comments

- GRE for IPv6?
  - Draft-pignataro-intarea-gre-ipv6

# Ask

- Implementations have been widely-deployed for years
  - Nothing is likely to change
- WG Last Call?
