ODMRP

draft-gerla-manet-odmrp

Thomas Clausen (thomas@thomasclausen.org)
proxying for Axel Colin de Verdière (axel@axelcdv.com)

IETF 91, Honolulu, Nov. 13

ODMRP Status

- -04 out after IETF 90

- Main changes:

  - Support for interfaces with multiple addresses

  - Security consideration sections

  - Experiments section

  - IANA considerations

ODMRP Status

- Follow-up with draft-gerla-manet-odmrp-asym-02 this week

  - Follow changes in draft-gerla-manet-odmrp-04

  - Support for interfaces with multiple addresses

  - Specify a hop count field for JQ messages, necessary to build Loops

  - Lots of clarification and editorial refactoring

Next steps

- We hereby ask the WG chairs to call for WG adoption of draft-gerla-manet-odmrp

- Goal: Experimental RFC

- Comments, reviews and suggestions much appreciated
