

Pseudowire And LDP-enabled Services (PALS) WG

- Combination of PWE3 and LDP-related work from L2VPN
 - Chaired by Andy Malis and Stewart Bryant
 - Many thanks to former chairs Nabil Bitar, Matthew Bocci, and Giles Heron
- Three new RFCs from the former WGs
- Five drafts near completion and IESG submission
- First meeting since chartering, Wednesday at 13:00
 - Agenda includes PW OAM, protection for dual-homing, multi-chassis, and S-PE failure, specifying LDP processing behaviors for various FEC types
- Post-IETF, the milestones need updating to better reflect reality, esp. for former L2VPN work
