WG Documents (2)

- **draft-ietf-avtext-sdes-hdr-ext-00**
 - Submitted as WG document Monday morning.
 - Update the draft in the following ways:
 - Modify in the introduction of the draft why only select SDES items are registered at this time. Talk more about privacy concerns with NAME etc.
 - Remove the references and discussion around SRCNAME and APPID.
 - Ensure that we have a integration of MID, without delaying BUNDLE draft and its specification of MID.
 - A bit more discussion of what is needed for any future item registering its SDES item for use in the header extension.
 - Timeline:
 - Version with above in early May.
 - Update before July meeting.
 - WGLC in Aug./Sept., update before Nov. meeting.
 - Pub Req in December.
