

# Labeled ARP

draft-kompella-mpls-larp

Kireeti Kompella

Balaji Rajagopal

George Swallow

# Status

- Comments on the list, in the Working Group and those made in private have been addressed
  1. How to LARP for IPv6 addresses
    - Just set the "protocol address" to IPv6
  2. How to reply with a label stack
    - Reply format has been changed to accommodate this more efficiently

# Next steps

- Request 1 (to WG): more comments on the list
- Request 2 (to WG chairs): make this a WG document
