

# PRECIS Status (Author Perspective)

Peter Saint-Andre  
PRECIS WG  
IETF 92

# framework-23

- Several versions published to address WG, IETF, and IESG feedback
- Approved for publication
- Working on registries with IANA (mostly done)
- Checking codepoint table before IANA proceeds (Marc has given his OK, Peter is still reviewing)

# saslprepbis-14

- Split Username profile into UsernameCaseMapped and UsernameCasePreserved
- Updated directionality text to track framework
- Addressed WGLC feedback
- Ready for IETF Last Call (IMHO)

# nickname-16

- Mentioned non-chat uses, e.g., Internet of Things (as in draft-nemoto-precis-alternativenames)
- Updated directionality text to track framework
- Addressed WGLC feedback
- Ready for IETF Last Call (IMHO)

# xmpp-6122bis-20

- Refactored to reuse UsernameCaseMapped and OpaqueString profiles from precis-saslprepbis
- Addressed WGLC feedback in PRECIS and XMPP
- Ready for IETF Last Call (IMHO)
