

A conversation with the working group

Outcomes the chairs hope for this meeting

- Send three drafts to IESG:
 - draft-ietf-v6ops-cidr-prefix (already in queue)
 - draft-ietf-v6ops-design-choices
 - draft-ietf-v6ops-pmtud-ecmp-problem
- (Adopt and?) determine road map for
 - draft-anderson-v6ops-siit-eam
 - draft-ietf-v6ops-siit-dc
 - draft-ietf-v6ops-siit-dc-2xlat

New project: IPv4 as a service

- Premise:
 - IPv6-only networks
 - IPv4 is a necessary but fading requirement
- Write operational guidance regarding deployment and use of
 - 464xlat
 - SIIT-DC
 - MAP with encapsulation
 - MAP with translation
 - DS-Lite
 - LW4 over 6
