DOTS use cases

draft-mglt-dots-use-cases-00.txt

D. Migault

21/07/2015- IETF93- Prague

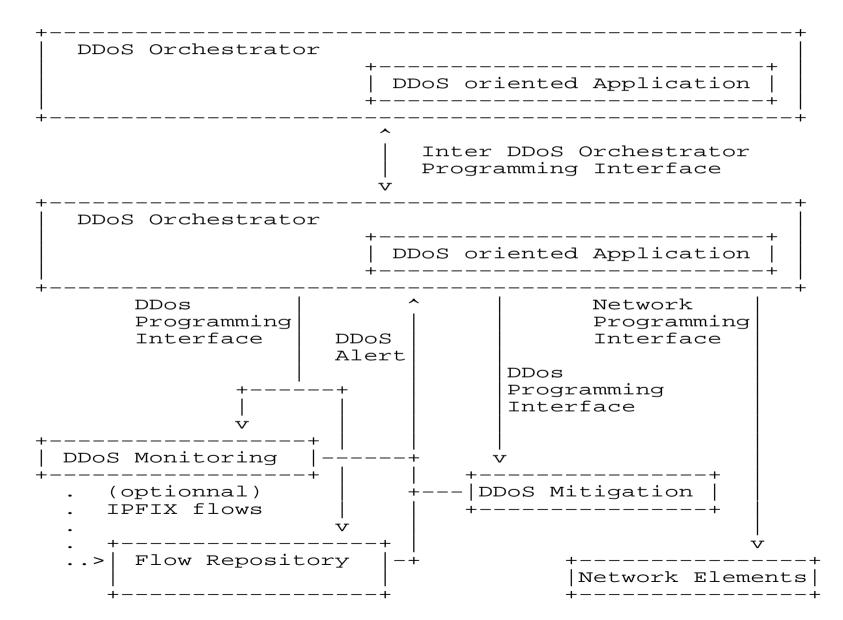

The goal of the presentation are:

- To agree on the use case that are in scope of DOTS
- (to agree on the scope of DOTS)

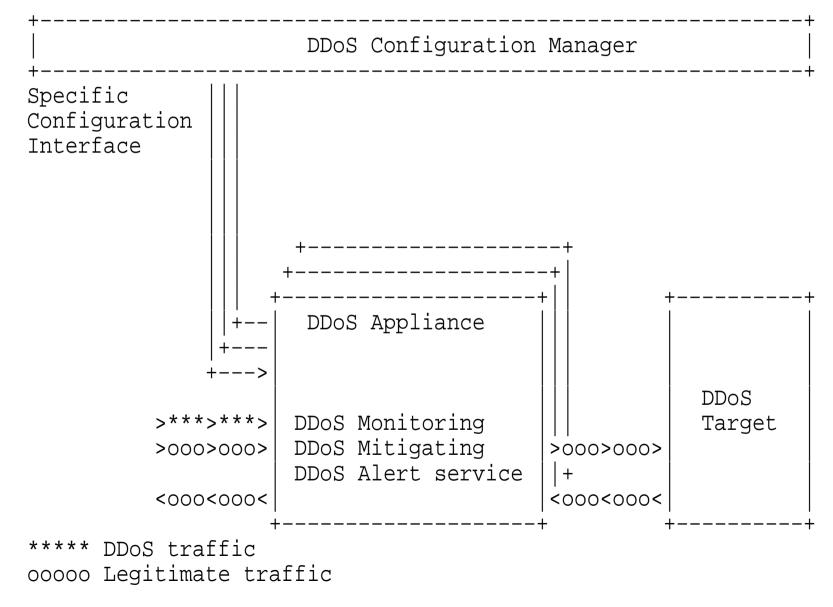

We assume that DDoS can be mitigated by:

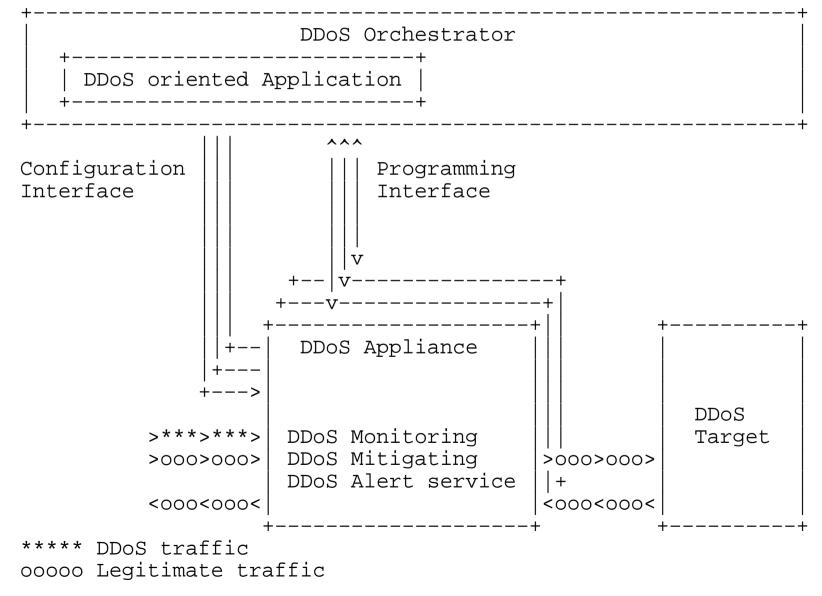

- Coordination
- Collaboration
- Programmability

DDoS Open Threat Signaling (DOTS) is expected to be the communication protocol that achieves these goals.
