

YANG Patch Media Type

draft-ietf-netconf-yang-patch-05
NETCONF WG
IETF #93 Prague

Andy Bierman <andy@yumaworks.com>
Martin Björklund <mbj@tail-f.com>
Kent Watsen <kwatsen@juniper.net>

v0.1

Agenda

- Review resolution proposals for open issues
 - <https://github.com/netconf-wg/yang-patch/issues>
- Next Steps

#3: startup capability

- Should RESTCONF support the startup datastore capability from NETCONF?
 - NETCONF servers do not automatically save to NV-storage if :startup is supported
 - Mailing list thread did not confirm customer requirements for this feature
- Proposal: leave out
 - RESTCONF does an NV-save after each edit

Next Steps

- Draft is ready for WGLC
