# Passing of the Working Group Chair Hat

- Nobo was a bit too optimistic about being able to keep up with his BFD duties in his new position. Sadly, he's stepping down as BFD Working Group co-chair.
- Reshad was kind enough to take up the job! Welcome, Reshad!

# Document Status

- Wiki is current:  
<http://wiki.tools.ietf.org/wg/bfd/trac/wiki>
- 5884 is in the RFC Editor queue.
- S-BFD documents have received AD feedback that needs to be addressed. Santosh PK will be taking up the pen to drive these to conclusion.

# S-BFD Use Case draft

- Our AD, Alvaro, had suggested we consider not progressing the Use Case draft.
  - This is a general trend starting to work its way through IETF.
- We have been given the option to publish if we wish, as long as AD comments are addressed.
- What is the WG's opinion?

# Working Group Last Calls

- BFD Multipoint drafts:
  - draft-ietf-bfd-multipoint
  - draft-ietf-bfd-multipoint-active-tail
- BFD MPLS MIB:
  - draft-ietf-bfd-mpls-mib

Both documents have been in WGLC for several weeks with no feedback. Will permit the WGLC to continue a few more weeks. Please send your comments to the mail list.
