

# CDNI Media Type

draft-ietf-cdni-media-type-06

IETF 94

Kevin J. Ma

# Updates Since IETF 93

- Initial version and 6 revisions
- Made it through IESG Review
- In RFC Editor Queue
- Registers new media type: application/cdni
- Creates new registry category: Content Delivery Networks Interconnection (CDNI) Parameters
- Creates new registry: CDNI Payload Type
- **Example:** `Content-type: application/cdni;  
ptype=MI.HostIndex.v1`

# Next Steps

- None?
- Updated interface documents (MI/RI/LI/FCI) with new media type registrations
- Need to update interface documents (RI/LI) with additional IANA considerations text
