New Revision of the Interactive Connectivity Establishment (ICE)

draft-ietf-ice-rfc5245bis-00

IETF 94, Yokohama
November 5th, 2015
Ari Keränen
ari.keranen@ericsson.com

Issues remaining for ICE-bis

- Connectivity check pacing
- Nomination clarification
- ICE restart (new)
- Editorial

- Is that all?

ICE restart

- Without SDP, it's no longer obvious
- Can both endpoints change ufrag and password at the same time?
- Can one side change and not the other?

- Need to clarify
