

YANG Patch Media Type

draft-ietf-netconf-yang-patch-06
NETCONF WG
IETF #94 Yokohama

Andy Bierman <andy@yumaworks.com>
Martin Björklund <mbj@tail-f.com>
Kent Watsen <kwatsen@juniper.net>

v0.1

Agenda

- Review resolution proposals for open issues
 - <https://github.com/netconf-wg/yang-patch/issues>
- Next Steps

#4: replace anyxml with anydata

- The value node in the edit list is an anyxml node.
 - YANG 1.1 needs to be used so it can be replaced with anydata
 - description-stmt needs to be clarified wrt/ what can be contained within the anydata node
 - Is anydata allowed within the 'value' anydata node?
 - Is anyxml allowed within the 'value' anydata node?

Next Steps

- Update the YANG module to use anydata
- Publish -07 draft right away
- Start WGLC for -07 draft
