Sender Constrained JWT for OAuth 2.0

-- https://www.ietf.org/id/draft-sakimura-oauth-rjwtprof-06.txt

Nat Sakimura

Kepeng Li

Introduction

- OAuth PoP Security Architecture talks about possible ways:
  - Confidentiality protection
  - Sender Constraint ← Not written in POP Key Semantics.
  - Key confirmation
- This draft specifies sender constraint mechanism.
  - Client Identifier representation
  - Client authentication
  - Client identifier discovery
- Authors are working on the review comments from Mike
