

Pseudowire And LDP-enabled Services (PALS) WG Status IETF-94 Yokohama

Co-Chairs: Stewart Bryant stbryant@cisco.com
and Andy Malis agmalis@gmail.com

Secretary: David Sinicrope David.Sinicrope@ericsson.com

Note Well

Any submission to the IETF intended by the Contributor for publication as all or part of an IETF Internet-Draft or RFC and any statement made within the context of an IETF activity is considered an "IETF Contribution". Such statements include oral statements in IETF sessions, as well as written and electronic communications made at any time or place, which are addressed to:

- The IETF plenary session
- The IESG, or any member thereof on behalf of the IESG
- Any IETF mailing list, including the IETF list itself, any working group or design team list, or any other list functioning under IETF auspices
- Any IETF working group or portion thereof
- Any Birds of a Feather (BOF) session
- The IAB or any member thereof on behalf of the IAB
- The RFC Editor or the Internet-Drafts function

All IETF Contributions are subject to the rules of RFC 5378 and RFC 3979 (updated by RFC 4879).

Statements made outside of an IETF session, mailing list or other function, that are clearly not intended to be input to an IETF activity, group or function, are not IETF Contributions in the context of this notice. Please consult RFC 5378 and RFC 3979 for details.

A participant in any IETF activity is deemed to accept all IETF rules of process, as documented in Best Current Practices RFCs and IESG Statements.

A participant in any IETF activity acknowledges that written, audio and video records of meetings may be made and may be available to the public.

PALS Agenda

1. 15 min - Agenda bash, WG Agenda and Status -
Andy MALIS and Stewart BRYANT

2. 15 min - L2 VPLS Yang model - Patrice
BRISSETTE

<https://tools.ietf.org/html/draft-shah-pals-mpls-l2vpn-yang-01>

Objective: This is to present our progress in term of Yang modeling on L2 front. Last time in Prague, the VPWS model was presented. This time, this is about VPLS.

New RFCs and RFC Editor's Queue

- No new RFCs since IETF 93
 - But we've been priming the pump
- RFC Editor's Queue:
 - draft-ietf-pals-ms-pw-protection
 - draft-ietf-pals-vccv-for-gal
 - draft-ietf-pwe3-iccp-stp
 - Authors, please respond quickly to AUTH48 emails from the RFC Editor

IESG Review

- IESG Review:
 - draft-ietf-l2vpn-vpls-pe-etree (revised ID needed)
 - draft-ietf-pals-congcons (AD review)
 - draft-ietf-pals-mpls-tp-mac-wd (revised ID needed)
 - draft-ietf-pals-redundancy-spe (revised ID needed)
 - draft-ietf-pals-rfc4447bis (AD review)
 - Candidate for Internet Standard
 - Needs a new section to show how it meets RFC 6410 criteria

Drafts that have completed WG Last Call

- draft-ietf-pals-vpls-pim-snooping
(passed L2VPN WG LC)
 - Still some open comments to resolve
 - Since a lot of time has passed, most probably will have a PALS WG LC as well once it's ready

Drafts in WG Last Call

- None at this time
- Authors have requested WG last call, will happen following the IETF meeting:
 - draft-ietf-pals-mpls-tp-oam-config
 - draft-ietf-pals-mpls-tp-pw-over-bidir-lsp

Updates On Other Drafts In Progress

- draft-ietf-pals-mpls-tp-dual-homing-protection and draft-ietf-pals-mpls-tp-dual-homing-coordination
 - Refreshed just before the cut-off
 - Authors plan to make updates in next revision, would like to solicit review comments from the WG
- draft-ietf-pals-endpoint-fast-protection
- draft-ietf-pals-ldp-vpls-broadcast-exten
- draft-ietf-pals-mc-pon
- draft-ietf-pals-seamless-vccv
