Sturdy Roots Keep the IETF Grounded in the Winds of Change

At our start, 30 people with the simple idea of Rough Consensus and Running Code

BCP 95, RFC 3935: The goal of the IETF is to make the Internet work better.

How can the IETF be true to our roots, thrive in this ever expanding virtual life, and create the future Internet needed by all?

Enthusiasm for Supporting the IETF

Many organizations *want* to support the IETF!

I E T F[®]

Trusted Technical Authority

is redesigning Open Internet Endowment to be focused only on the IETF & renamed IETF Endowment

Provides help for the IETF transition from a funding structure based on physical meetings.

Expand motivations for IETFers and supportive organizations.
Increase ways to effectively participate.

IETF Future - Spread the Idea, Grow the Community

Rough Consensus and Multi-stakeholder

- Improve and Increase Remote Participation for IETF meetings.
- Encourage IETF Hubs – Location-based active communities with technical sharing, hackathons, remote hubs, and – of course – social. Recreate the hallways!

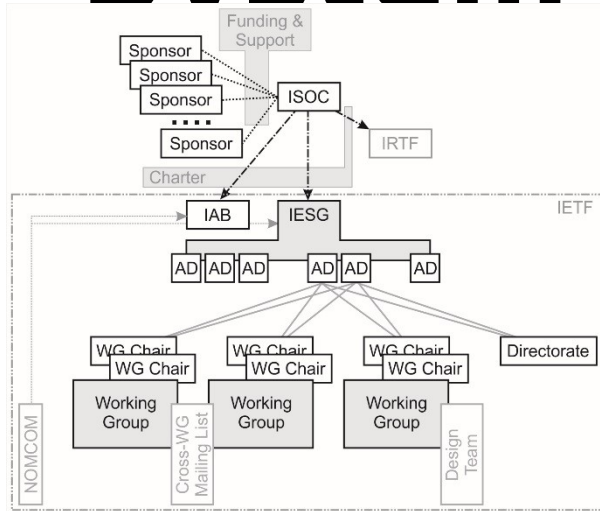

Running Code

- Interact with Open Source+++
- Evolve hacking and running code culture with your thoughts!
- CodeMatch

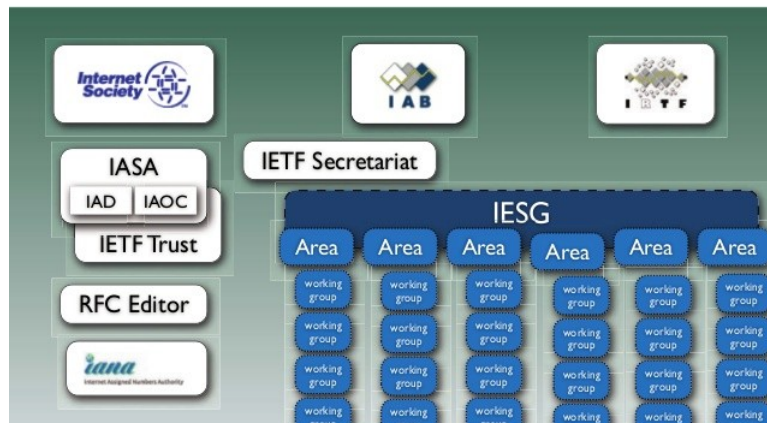

Spread the IETF Idea

- Tell about the IETF and our work to the world
- Encourage new technical focuses and communities

The IETF is *our* Changing System

IETF Organizational Overview

We got you **thinking**... Now What?

GOALS

DT Ideas: draft-arkko-ietf-trends-and-observations-00

We want and need **your** ideas! How should the IETF adapt and improve?

- Community discussion that **CONVERGES** and helps set direction!
- Volunteers who drive, experiment, succeed or fail fast, and keep trying and report back new ways to work.
- Work on Internet time-scales to experiment and adapt.

IETF Broad Consensus that enables *significant* change.

"Do not judge me by my successes, judge me by how many times I fell down and got back up again."

Mailing List for Discussion: ietf@ietf.org

In-person for Discussion: All of us (usually in smaller groups)

Thanks to the Design Team:

Jari Arkko, Steve Olshansky, Alia Atlas, Avri Doria, Tobias Gondrom, Olaf Kolkman, Benson Schliesser, Robert Sparks, and Russ White

Thanks to the IETF – for roots and an exciting future!
